CHARITY VAULT

**PROVIDING A RESOURCE TO OUR
FRONTLINE HEROES THAT SERVE
THEIR COMMUNITIES EVERY DAY. AS
THEIR PROFESSIONS HAVING
OVERWHELMING STRESSES THAT
CAUSE DEPRESSION, MENTAL
ILLNESS, AND PTSD**

Frontline Heroes Token

<https://frontlineheroestoken.com>

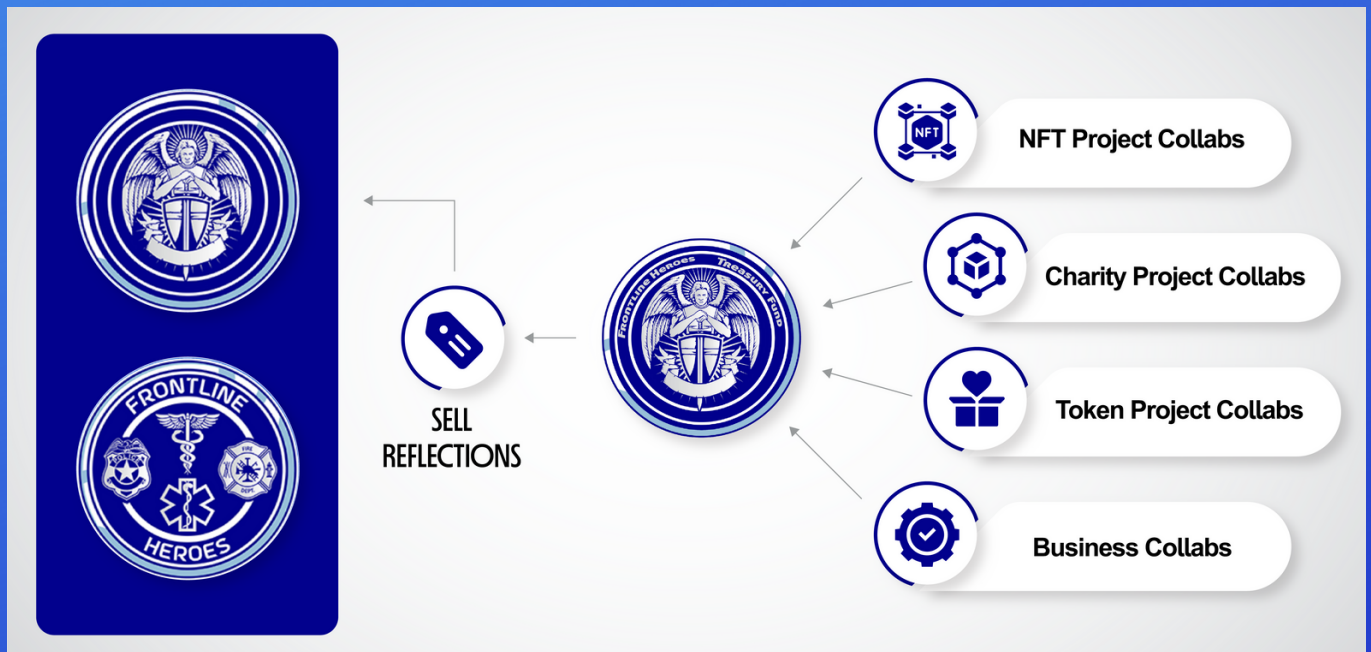

The Charity Vault was established to coexist within the Charity Wallet. This wallet can be tracked at all times and the community takes part in the assets, disbursement of the funds, and how they are used every quarter along with the charity funding matrix.

The Frontline Heroes token project focus is on charitable driving tokenomics and being able to support those that serve. We will focus on the growth of the project through collaboration and partnerships that best fit our Mission and Vision of the Chairty Concept.

The next page gives a visual reference of the Charity Vault concept and then we will explain how partnerships and collaborations are decided.

"Saint Michael the archangel, defend us in battle. Be our protection against the wickedness and snares of the evil"

How Does it Work?

We will partner and collaborate with other projects and grow the Charity Wallet/ When we partner, we will request a specific wallet that will forever hold the Frontline Heroes Token, as we plan to do the same.

We will only sell reflections quarterly of all assets within the Vault to accumulate as much funds as possible.

We will place these funds in the two respective categories.

1. Charity Fund
2. Treasury Funds

The Charity fund is the main concept and all collaborations will be also publicized along side the FHT Contributors / Investors.

The Treasury funds are those projects that sell FHT after collaboration and the Charity Vault holding will be reinvested into the FHT eco-system to increase the value of the Frontline Heroes token.

Partnerships and Collaborations Decided

The Frontline Heroes Token project will allow its investors to help build this fund.

Any holder of FHT can submit a request through the Frontline Heroes Token Website.

A list will be compiled and explanation of the request, as for all investors to help the project decide what partnerships and/or collaborations are chosen.

The community involvement will be key to the success of not only the project but the overall awareness to future and potential investors.

Once a partnership is established and a spreadsheet updated with wallet addresses for transparency the community can track the success.

How are funds secure?

First, I would like to let you know the project creator has secured an EIN number for the Charity aspect of the project and future development.

What does this mean?

Well, the transparency of the project along with a US Federal Backed 501(c) allows for investors to know the project creator and to specifically track the funds and transaction as this non-profit is public and requires reporting to local and federal governments.

Lastly, I want to ensure that the requirement of partnership and collaborations is for each party to make available a wallet holding and if any holder sells those holdings below the initial investment will void the partnership or collaboration agreement.

This should be long term investment opportunities for both parties.

**THANK YOU
FRONTLINE HEROES**
